Level Access Shower Garage Conversion

This Level Access shower was provided for a disabled child to allow ground floor living; completed alongside a bedroom and hoist

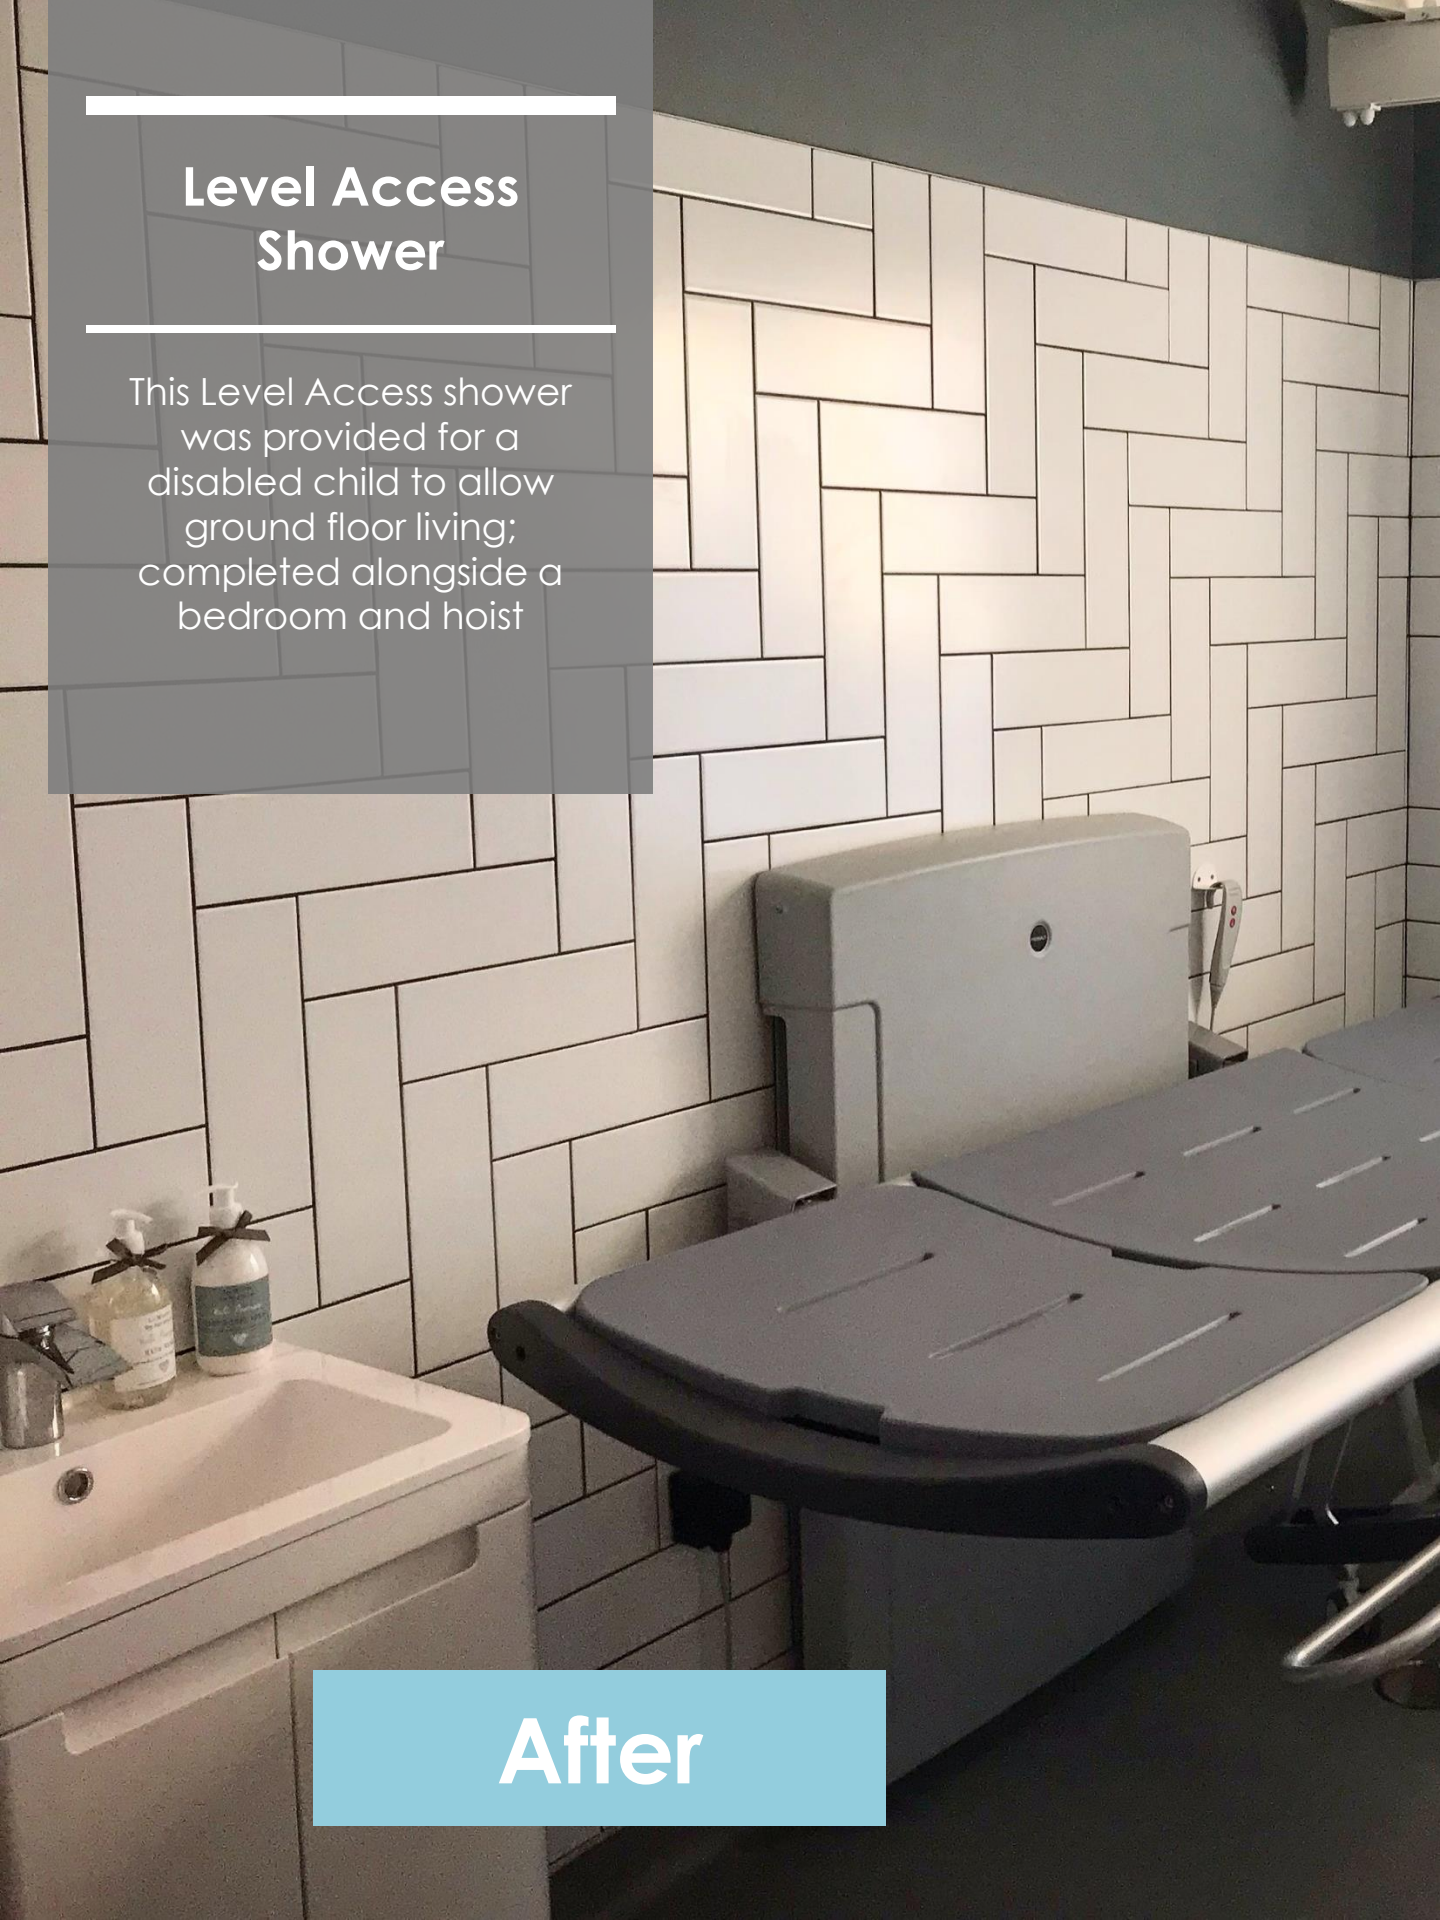

Level Access Shower

This Level Access shower was provided for an older person who was unable to use her bath. The chrome shower and blind was funded by the client.

Level Access Shower

This Level Access shower was provided for a disabled child to allow ground floor living; completed alongside a bedroom and hoist

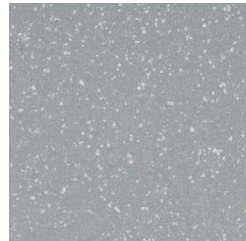

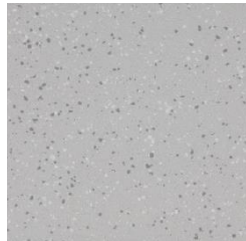

After

Before

Our level access showers are usually fitted with a thermostatically controlled shower unit and Altro non-slip flooring which come in a variety of colours for you to choose from.

You will always be offered a choice of tiles and paint colours, however designs and sizes vary between our contractors. If you would like specific tiles that cost more than the tiles we specify, you are more than welcome to discuss with the chosen contractor and pay the difference.
